

Expedition Parka

Expedition Parka is an excellent choice for small and big adventures in cold weather. The Expedition Parka has been especially developed for short-haired dogs and dogs without undercoat, but in cold conditions it is suitable for all other dogs as well. It is suitable for extra warmth, for example, for agility dogs after workouts or for dogs needing warmth due to their age or health.

The technical surface material of the easy-to-use coat is excellent for even the toughest of games. The protective model of the Expedition Parka is designed to allow for extended range of motion when the dog is running and playing. The water- and windproof soft elastic segments on the front are flexible with the dog's movements. The neckline, length of the back and the collar circumference of the Expedition Parka can be adjusted.

- Durable 100% PES 300D surface fabric
- Waterproof, laminated material: waterproofness 10,000 mm
- Tearing strength: 26/24N
- Taped seams
- Soft finish 100% PES technical 135 g knitted lining
- 120 g wadding
- Fluorocarbon-free Rudolf ECO water-repellent treatment
- Both the lining and surface fabric are certified to be safe and free of harmful substances in accordance with the Öko-Tex-standard 100.
- In addition to the basic sizes 20–80, there are sizes 40XS and 45XS for Dachshunds and 30XL and 35XL for small, bull-type dogs.
